Holocaust Survivor to Give Presentations

Black River Technical College, in cooperation with the United States Holocaust Memorial Museum, will host Holocaust survivor Emanuel (Manny) Mandel for three presentations October 27-28.

Mandel will be speaking at 9:30 a.m. both Tuesday and Wednesday morning, and 7:00 p.m. Tuesday evening. All presentations will be held in the Randolph County Development Center auditorium on the BRTC Pocahontas campus.

According to the USHMM website, Emanuel (Manny) Mandel was born on May 8, 1936, in Riga, Latvia. Manny's father accepted a position as a Jewish chief cantor in Budapest and the family returned to Hungary.

Because of the anti-Jewish laws which had been imposed since 1933, Manny's father was very protective of Manny. In March 1944 after the Germans occupied Budapest, 7-year-old Manny and his family were part of a group of 1600 Jews whom Adolf Eichmann offered to the Allies in exchange for materials. The group had been promised to be sent to Switzerland, but complications in

the agreement found the Jews on a train for Bergen-Belsen camp. Finally, Manny and his family were transported in late 1944 via Nazi transport to Switzerland.

In 1945, Manny and his mother emigrated to Palestine. He moved to the U.S. in 1949.

The presentations are free and open to the public. Sponsors of the event include SEAS Project of the BRTC Foundation; Mike and Barbara Dunn; First National Bank of Walnut Ridge, Hoxie, Pocahontas, and Bono; Dean and Brenda Gillogly; and Integrity First Bank.

Running this event would not be possible without the help of all the volunteers including the BRTC Foundation Board members, staff and board members of the Rolling Hills Country Club, and employees of IBERIABANK, Baltz Chevy-Olds, and Integrity 1st Bank.

In addition, more than 80 individuals and organizations gave money, goods, and services to the tournament. Without them, the event would not have been possible. More importantly, many students will benefit from receiving scholarships to complete their education at BRTC.

"It is always rewarding to see the large crowds supporting this event," said Kelly Rose, BRTC Foundation Chair and Vice President and Commercial Relationship Manager for Regional Banking of IBERIABANK. "From sponsors to volunteers to participants, support for the event was remarkable. The BRTC Foundation is humbled by the support of our partners and community as we seek to continue our support of the BRTC mission. Thanks to all for making the event a fun and successful day."

BRTC, an Institutional Participant in the SARA Initiative

Black River Technical College is one of only 24 schools in Arkansas to participate in the National Council for State Authorization Reciprocity Agreements (NC- SARA). SARA is a voluntary agreement among states nationwide to establish national standards for distance education courses and programs. SARA's mission is to make enrolling in online courses in another state easier for college students.

This effort is funded by a \$3 million grant from Lumina Foundation, \$200,000 from the Bill & Melinda Gates Foundation, and fees paid by institu-

tions. This helps to eliminate approval costs for colleges and universities, costs which are often passed on to students.

BRTC's Director of Distance Education and Instructional Technology, Regina Moore says, "This will allow out-of-state students to easily enroll in our growing distance education programs which will allow them to earn degrees and certificates fully online."

Inaugural White Coat Ceremony Held

The Black River Technical College Practical Nursing Department held its inaugural White Coat Ceremony on the evening of September 18 in the Randolph County Development Center.

This ceremony was held to welcome the new December 2016 class of practical nursing students to the profession of nursing. White coat ceremonies are designed to instill a commitment to providing compassionate care among future health professionals. While in the past these ceremonies have been an important rite of passage of medical schools, the nursing faculty thought it important to instill the sense of value and pride in nursing students as well.

Students and their families were welcomed by Nursing 1 instructors Kelsie Cagle and Tahnee Green and shown a short video clip portraying the field of nursing. Following the video, Director of Nursing Tonya Hankins spoke on the importance of professionalism and following the calling that has been placed in the students' lives. Students were then cloaked with their symbolic white coats and welcomed into the nursing profession.

A reception for students and their families followed.
