

**Statement of Hazing Policy  
and  
Campus Hazing Transparency Report  
December 23, 2025**

## **Introduction**

The Stop Campus Hazing Act (SCHA) of 2024 is a federal law aimed at increasing transparency and accountability in how colleges handle hazing incidents. It requires institutions that receive federal financial aid to publicly report hazing incidents in their annual crime disclosures, just like they do for other campus crimes under the Clery Act. Schools must also establish clear policies to prevent and address hazing, including education programs for students. The law was driven by growing concerns over the dangers of hazing, which has led to severe injuries and deaths in fraternities, sororities, athletic teams, and other student groups. By mandating better reporting and prevention efforts, the act seeks to protect students from harmful initiation practices and hold institutions more accountable.

This Biannual Transparency Report on Hazing Incidents is published in accordance with the SCHA, reinforcing our commitment to student safety and institutional accountability. As part of our duty to create a secure and respectful learning environment, this report provides a detailed account of reported hazing incidents, institutional responses, and preventative measures implemented over the past six months. By sharing this information, we aim to foster awareness, encourage responsible student behavior, and ensure compliance with federal regulations. Our goal is not just to report hazing but to actively work toward a campus culture that prioritizes respect, inclusion, and student well-being.
